

LIFE SCIENCES IN BIRMINGHAM – SUPPORTING GROWING BUSINESSES

The BioHub Birmingham, DLA Piper and KPMG are delighted to invite you to our seminar, **Life Sciences in Birmingham – Supporting Growing Businesses** on Tuesday **2 March 2016** at The Birmingham Research Park.

Birmingham is a hub for Life Sciences and the seminar will focus on the support and opportunities that the Birmingham community can provide to a Life Sciences business from its conceptual stage through product development, initial and later stage funding to supporting a successful commercial business.

The BioHub provides laboratory space and office facilities for small Life Sciences businesses and the seminar will provide guidance to businesses on how they can best leverage what the BioHub has to offer as well as the professional skills base and financial support that is available in Birmingham and the Midlands.

All are welcome. Businesses at a conceptual and early development stage might find the content of particular interest.
