

INTRODUCING MERIDIAN ONLINE HEALTH INNOVATION EXCHANGE

INNOVATION AND ADOPTION
West Midlands Academic Health
Science Network

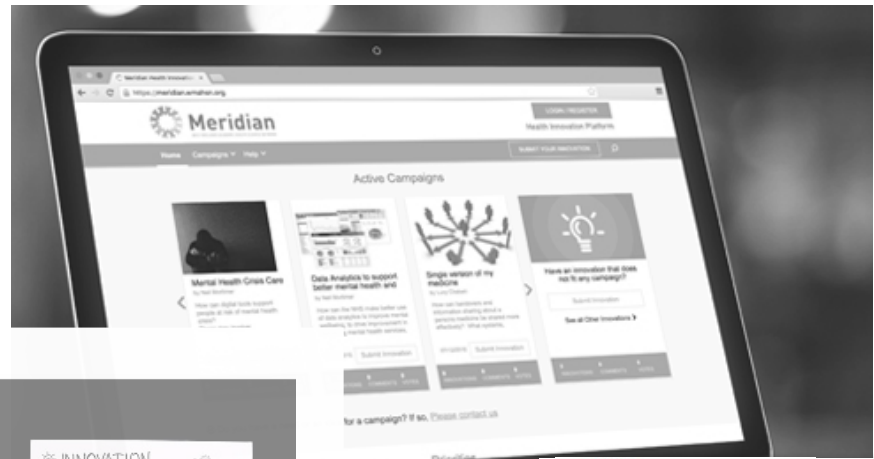

IMPROVING HEALTH AND WEALTH
ACROSS THE WEST MIDLANDS

WMAHSN has launched Meridian, an online health innovation exchange that will support the spread of good practice to deliver improved health and wealth across the West Midlands.

Meridian is an interactive platform for anyone to share their needs, innovations and ideas; build groups and networks; and make contact with people whose innovations could change healthcare in the West Midlands and provide a solution to their challenge.

Innovations can be submitted to match the active campaigns, with a specific theme and need identified that requires an understanding of what innovations are already out there or what could be created through collaboration.

Alternatively, you can submit your own innovation anytime on the Home page.

“

Meridian helps to pull in innovations to your identified needs and put into action a solution where one may not have existed previously.

”

Do you have an innovative product or service that can benefit the health sector?

Welcome to Meridian > > >
