

Opportunity to join the NHS Innovation Accelerator

The NHS Innovation Accelerator (NIA) is recruiting exceptional individuals with evidence-based ready-to-scale innovations to join its new cohort

APPLY

by 26th July 2017

For 2017 we are seeking local, national and international innovations that address the following NHS priorities:

Mental Health

Urgent & Emergency Care

Primary Care

Do you have an innovation which addresses one or more of the above priorities?

Does your innovation demonstrate, in practice, significant outcomes for significantly lower cost?

Is your innovation supported by an evidence-base, and ready to be diffused across the NHS?

Do you have a passion for learning and for sharing your insight widely?

Are you committed to scaling evidence-based innovations for patient and population benefit?

If you answered 'YES' to all the above, we want to hear from you!

APPLY NOW

"Through the NIA programme we have been able to match entrepreneurial endeavour with need in the NHS... to show very real and tangible benefit for patients and rapid uptake of new innovations. This is something that the NHS should be really proud of."

Professor Sir Bruce Keogh, National Medical Director, NHS England

For updates and insights on the benefits of being an NIA Fellow follow us on Twitter @NHSAccelerator or use the hashtag #NIA17call
