

OUR MEMBERSHIP OFFER

Introduction

The WMAHSN membership scheme was launched on 1 June 2015. All NHS organisations, academic and educational institutions, other public bodies, third sector organisations, life sciences industry and private sector companies within the West Midlands were automatically enrolled as WMAHSN standard members. The participation of private organisations based outside the West Midlands is also welcomed.

From 1 April 2016, WMAHSN will be offering an enhanced membership scheme, with additional benefits, services and premium access that can give organisations a leading edge.

Our membership levels

Standard membership

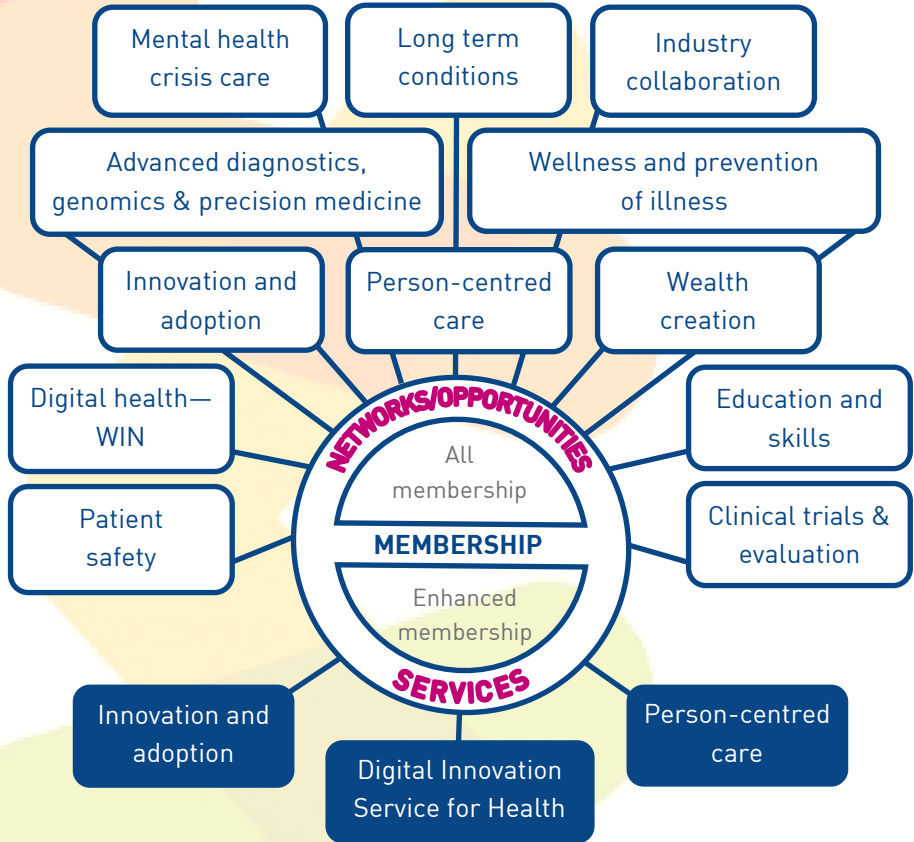

The fee for standard membership is covered by NHS England and effectively remains at no cost. Standard membership provides access to all expert networks, the opportunities for innovations process (including Meridian, the online healthcare innovation exchange), a suite of communications and opportunities to attend WMAHSN events

Enhanced membership

Fee-paying enhanced membership includes the features above, as well as membership-only services:

- WMAHSN enhanced services
- Practical advice, support and a range of readymade innovation tools
- EIT Health KIC communities and opportunity to bid for EU funding
- Membership of MidTECH, the technology transfer office for the NHS
- Premium access to Meridian, the online health innovation exchange
- Access to the medicines optimisation component.
