

West Midlands Health Informatics Network

## The Digital Health Revolution For Future Clinicians

15 March 2016, 18:00-20:00, [University of Warwick](#)

The West Midlands Health Informatics Network invites clinical students to attend its forthcoming **free** event. The aims of the evening are to:

- offer insights into the integration of digital technology in the practice of the clinicians of the future;
- enable networking across schools; and
- provide peer support in a relaxed environment.

Presentations will be delivered by representatives of the [Institute of Digital Healthcare](#):

- Prof. Theo Arvanitis, An Introduction to Medical Informatics
- Omar Khan, Stepping with a virtual partner: exploring the use of virtual avatars for gait retraining
- Dr Sarah Lim Choi Keung, Research highlights: health information exchange and decision support
- Dr Sudi Lahiri, MSc. in Healthcare Operational Management: ensuring cost-effective healthcare systems to deliver quality care *consistently*

Go to [wmin.org/events](http://wmin.org/events) for more information. If you are interested in attending, please [email Martin Rowland](#) by no later than **11 March 2016**, stating your name, academic affiliation, specific requirements (e.g. access, diet) and contact details. For any other enquiries, please [contact us](#). Attendance is free and catering will be provided.
